

# Air quality crisis.

The air you breathe is polluted.

Use the same filtration that thousands of firefighters come home to. Protect your family from airborne contaminants and impurities.

Austin Air cleaners filter out 99.97% of all airborne particulate matter larger than 0.3 microns (that includes mold spores, tobacco smoke, pet dander, and dust mites). All of these things that make it hard to breathe.

Breathe easy  
with America's #1  
air cleaner..

**Austin Air**  
*for life.*
